GRASS BLASTER®

The perfect weapon to pulverize vegetation

The Nylsaw Grass Blaster® cutting system for petrol machines is the perfect answer for dense and heavy vegetation.

Tested and proven in the JUNGLE, Nylsaw Grass Blaster® replaces a blade, slicing through thick and dense vegetation, a quick and safe cut!

Supplied with an adapter kit and 4 pieces of Nylsaw, Grass Blaster® is one of the most efficient non steel cutting systems available for professional and heavy use.

LINE BENEFITS

One of the most efficient non-steel cutting systems:

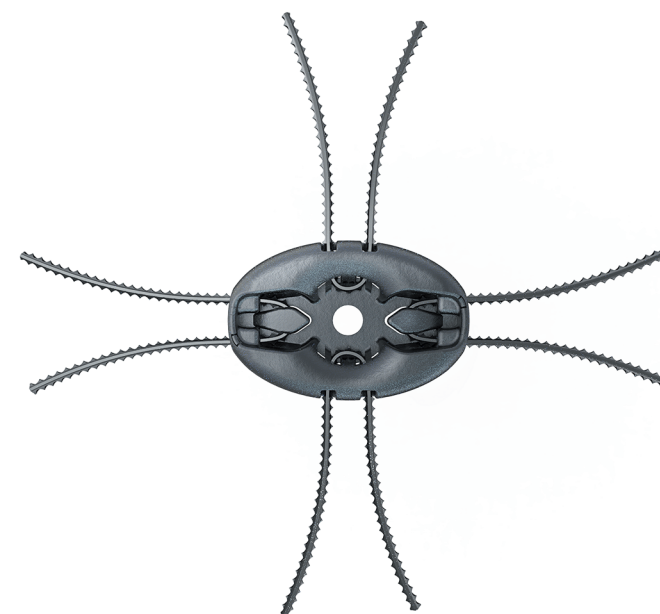

- Slices through thick and dense vegetation
- A quick cut
- As efficient as a blade
- Safe to use

Designed for:

- Petrol machines
- Professionals
- Heavy use

System features:

- Simple and quick reload
- Works with 4 or 8 lines (2 or 4 cut pieces)
