SP66[®] UNDULATED

The only patented line designed for battery machines

SP66[®] is the only trimmer line that has been specifically developed for battery machines: giving longer battery run time!

SP66[®] has a patented raw material blend which is very hard wearing and has a higher melting point that eliminates welding in the head. The unique shaping process provides an aerodynamic profile with less air resistance, less vibrations and reduced decibel emissions.

These energy saving features **give a longer battery run time!**

LINE BENEFITS

Excellent aerodynamic properties:

- Longer battery run time
- A faster cut than traditional lines
- Less effort required during cutting
- Reduced decibel emission

Hard wearing:

- Superior resistance to abrasion and eyelet wear
- Very stable and durable

Usage:

- Battery machines
- All types of use
